Pizza and Wine in a Vineyard for 8

You and seven of your friends will enjoy a 350 sq. ft. Subterranean Napaesque private wine cellar experience. You'll also enjoy wood fired Napolitano pizza with dough made from Caputo Flour imported from Naples Italy on the pool deck next to the vineyard after your wine cellar experience.

In the climate-controlled cellar, we will share amazing bottles of California wine including a few of our Napa favorites, as well as sample the estate wine from barrels while learning about wine and our wine region. A charcuterie board including homemade bread, and the finest meats and cheeses from around the world will be served with the wine.

The winery experience is three hours of celebration of great friendships, great food, and

great wine. We will pour 5+ wines from our region and from the Napa Valley during our time together.
