Provide Evangelism Empowerment by Funding a Radio Booster & Solar

#46

Starting Bid **\$11,000.00**

Donated by You!

Provide Evangelism Empowerment across Africa by helping spread The Gospel of Hope to the masses quicker and further by funding the Radio Boosters and Solar!

Radio and Solar - \$85,000 for the booster, \$25,000 for solar panels = \$110,000 Total

- Millions of people in South Sudan and Uganda are being impacted by the Favor FM Radio stations. Testimonies of salvations, healings, prevented suicides, saved marriages, and so much more come in every day!
- We want to replace the use of generators with solar energy. The cost of fuel would be greatly reduced by switching to solar. A solar package costs around \$25,000 USD. This switch would

greatly benefit both in Uganda and South Sudan.

- The radio is our air force and our staff are the soldiers for God's Kingdom. Our goal is to reach 3 million additional homes in Juba, South Sudan. Our present booster has a 25-meter range, but with a new purchase, we will have a 100-meter range!
- Join forces with us and make a direct investment in God's kingdom. We can bring more people to Christ because of your generous partnership.
