Provide Medical Empowerment by Funding a Medical Team Van

#56

Starting Bid **\$30,000.00**

Donated by You!

1. Help provide transport for Medical Teams across the field.

Cost of a Van - \$30,000 per van

- Medical treatment is an important service we provide in the villages we reach. These regions have no medical treatment. The mortality rate is extremely high for mothers and infants as they have no midwives.
- In just 3 days we are able to treat and evangelize 1,000 people through our medical team and outreaches!
- Our team sets up monthly ongoing care in the villages.

- With a purchase of a van for our medical team, we are able to travel, bring in medical supplies, nurses, and doctors. It will also serve as ambulances to rescue those in medical emergencies in these villages.
