"Life Unground"

16"x12" Original Acrylic on Canvas

Jenni paintings were created during the 2020 Global Pandemic. Time seemed endless and life was put on hold. In a moment of reflection she explored color, texture, and symbolism within the confines of isolation. Jenni played with mixed media elements and the flow of shapes and images of nature. Her body of work is in dedication to those left behind and to the departure of what is known and unknown. Jenni works with mixed media using acrylic paint.
