Started by Carlos Soto and Michael Arbanas and in the market by 2017, the idea of Nosotros was catalyzed by a college assignment, born from a passion for tequila. Our first expression, an unaged Blanco, put us on the map when it ultimately yielded “Best Tequila” at the world’s most respected spirits competition amongst many of the industry’s well-known brands.

We took our newfound credibility and funneled it into the craft-conscious California market.

Originally without contacts in the liquor or dining industries, we’ve grown from a self-distributed underdog in uncharted territory to a climbing competitor on the ranks of cocktail menus and premium spirits lists in several states across the country.

The Nosotros Toucan represents our Costa Rican and Mexican roots and spirit, with a special hint of California found in its wing.

Simply designed yet rich with the power of storytelling, the Nosotros Toucan encompasses who we are and the stories that we have to tell.
