Artist Statement

"My art compositions are made of recycled plastics and found objects to present a panel that is in between abstract and figurative, so that what the viewer sees comes from their own imagination (i.e., pareidolia). During the process, I can arrange and melt the plastic with some control and intuition, but with so many variables my result out of the oven is always a surprise. My design gets redesigned. The resin melts itself to sleep and in a dream resolves itself to the image that the future viewer needs to see. My art crosses over a boundary as if it goes to another world as a question and comes back as an answer."
