US Open Tennis Finals for 2

The United States Open Tennis Championships is a hardcourt tennis tournament that is the modern iteration of one of the oldest tennis championships in the world, the U.S. National Championship, for which men's singles were first contested in 1881. Since 1987, the US Open has been chronologically the fourth and final tennis major comprising the Grand Slam each year; the other three are the Australian Open, French Open, and Wimbledon.

The US Open has grown from an exclusive entertainment event for high society to a championship for more than 600 male and female professional players who, as of 2019, competed for total prize money topping \$57 million, the richest purse in tennis history.
